

Welcome back!

We hope you all had a great half-term break.

This term, we have launched *drumroll please* our new [website](#)!

The new website includes loads of great content for learners, and also features a dedicated area for you to check out all of our upcoming events and activities.

We are really excited to be back delivering in-person events and activities again this academic year. Since September, we have delivered 25 events and activities to hundreds of learners all over Lancashire.

We have just launched our latest offering, which is a series of 'In-a-Box'-activities designed to highlight potential career opportunities in the six 'Pillars of Growth' industries (as identified by the [Lancashire Enterprise Partnership](#)). Two boxes are currently available to book and are themed around '[Energy and Low Carbon](#)' and '[Advanced Manufacturing](#)'. As usual, all of our activities are free of charge and aligned to the Gatsby Benchmarks for Good Careers Guidance.

Also, check out these upcoming opportunities:

[NHS Health and Social Care Webinars](#)

[Empower Academy](#)

[Teen Tech Virtual Festival](#)

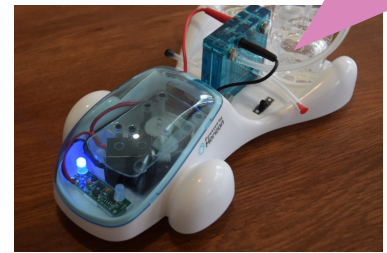

To find out more information and to book activities please contact your Future U Senior Officer who will be happy to help.
